

Denys R. Slater

(469) 226-9504 | Plano, Texas 75025 | denys.slater@gmail.com

EDUCATION

Texas A&M University

Bachelor of Science in Computer Science

College of Engineering

College Station, Texas

May 2027

Cumulative GPA: 3.5/4.0

PROFESSIONAL EXPERIENCE

Russell Rhodes Ornaments

Plano, Texas

Technical Intern

November 2024 – January 2025

- Developed Python scripts to automate photo editing and other repetitive tasks, reducing manual effort
- Leveraged Python libraries, such as OpenCV and MoviePy, to automate image editing tasks, gaining hands-on experience with image processing techniques and interacting with data files

Aw Shucks Oyster Bar

Frisco, Texas

Server

May 2023 – August 2023, May 2024 – August 2024

- Trained 5 servers on the preparation of tea, soups, and bar drinks, while also instructing them on company policies and service standards to ensure smooth operations and consistency
- Provided bilingual support to Spanish-speaking customers, ensuring accurate service and answering of questions effectively to enhance customer satisfaction
- Delivered daily cash transactions totaling \$5,000 with accuracy, ensuring a quality customer experience while delivering exceptional service

Russell Rhodes Ornaments

Plano, Texas

Inventory and Website manager

November 2021 – January 2022

- Cataloged inventory in Excel and cropped upwards of 2,000 product images to standardize dimensions, ensuring consistency and improving the visual presentation of the in-house catalog
- Enhanced over 500 online product images using Adobe Photoshop, optimizing visual quality and improving presentation to drive customer engagement and retention on the website

Order Processor

November 2020 – January 2021

- Located and retrieved items from the warehouse, accurately packed them for shipping, and ensured timely order fulfillment to meet customer delivery expectations

PROJECTS AND LEADERSHIP

Reddit Story Talk-to-Speech Bot

College Station, Texas

Personal Project

October 2024 – Present

- Parsed html code to produce readable and formatted text written to a file utilizing python to iterate through and clean up lists
- Trained and setup a local text-to-speech AI, Coqui TTS, to produce a rememberable voice and an mp3 file
- Setup a local transcription AI to produce subtitle files, and coded a video editor using MoviePy for a standardized output and combined mp3, SRT, and mp4 files into a finished product
- Produced finished product within five to fifteen minutes depending on story length and posted to TikTok to minimal success

Blackjack Game

College Station, Texas

Personal Project

November 2023 – December 2024

- Developed a single player blackjack game, in python, capable of being played in a terminal with all blackjack functionalities such as splitting, hitting, doubling, etc.
- Began development of a graphics window for the game to be played in using PyGame with interactive buttons
